A GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Viscera Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

GUNPOWDER,

"The powder first tried by the Committee in the Boxer-Henry cartridge, and of which they entirely approve, is know as 'Curtis and Harvey. No 6.' Several other descriptions manufactured at the Government Factory, Waltham Abbey, have also been tried, but have not afforded the same uniform accuracy of shooting.

There appear to be difficulties, confined, it is believed, to the question of expense, in producing a powder at Waltham Abbey in all respects equal to 'Curtis and Harvey, No 6,' but the Committee, keeping in view the importance of maintaining the great accuracy of shooting of the Martini-Henry rifle, recommend that no powder should be used for its ammunition that does not give results at least equal to those obtained in the Committee's experiments whether such powder be obtained from the Government Factory or from the trade."*

*Messrs Curtis and Harvey's powder was employed by Mr Henry during the competition for accuracy of shooting and the results then attained were satisfactory, the Committee have, without making trial of the powder of other manufacturers, continued its use as a standard.

CURTIS & HARVEY take this opportunity of sending an extract from the Report of the Special Committee on the most suitable rifles for the Service; and as THEIR GUNPOWDER is so highly commended, they think it desirable to communicate the information to their customers and friends. The recommendation equally applies to all marks and descriptions.

THE BRITISH COLONIST.
Thursday Morning, June 15, 1871.

Journalistic Assurance.

On Tuesday morning we published an article from the Cariboo *Sentinel*, wherein the Communist organ of this city was pretty severly handled upon the subject of the Civil List agitation. Instead of publishing the article, the Communist grossly misrepresented it. We do not propose to reply to those misrepresentations, feeling assured that our Cariboo contemporary is well able to fight its own battles, especially against so feeble a foe. The attempt to prove the member for Cariboo guilty of opposing Responsible Government in the last session of the Legislature is only equalled by the attempt to prove that the *Sentinel* supported the Civil List Bill; but both are completely eclipsed by the presumption with which the assertion is reiterated that of the four newspapers published in the colony the Communist journal is alone the true organ of public opinion! That journal contained a leading article on the 4th of January, from which we may be permitted to make the following extract for the special benefit of our local contemporary: "It is idle now-a-days for a newspaper to attempt to be an organ of public opinion without the latest news by telegraph. The news is the great means of circulating and making a journal attractive." And yet the journalist who laid down the above doctrine five months ago, and has almost ever since ceased to take "the latest news by telegraph," being content to crib the same from our columns and serve it up second-hand twenty-four hours after everybody had read it, has the astounding assurance to claim to be the only true exponent of public opinion in this colony! He complains of the use of the word "impudence" in the *Sentinel*; but surely "impudence" is the very mildest term for such conduct. The reiteration of bald falsehood has become a habit with the Communist. It was conclusively proved at the time, both in this journal and in the Cariboo *Sentinel*, that it was he who opposed Responsible Government at the last session, and that had his vote carried, the country would have been cheated out of that inestimable boon; yet he reiterates the silly assertion that it was the member for Cariboo who opposed it. We would advise this vendor of stale falsehoods to abandon the attempt to convince an intelligent public that black is white, and to cease gnawing a file. He would be much better employed in making another exhibition of his profound knowledge upon some great national question, such, for instance, as the Canadian Fisheries!

Yellow Fever in Buenos Ayres.

OVER TWELVE THOUSAND VICTIMS—THE PESTILENCE STILL RAGING.

MONTEVIDEO, April 15th, 1871.

The black wings of pestilence are hovering with sombre shadows over our neighboring city of Buenos Ayres, and a population which ten weeks since numbered at least 200 000 souls is now reduced by death and flight to 40 008.

Up to this date there have been over 12,000 deaths, and the daily average of mortality for the past few weeks has been 450.

On Saturday last, a week ago to-day, there have been five hundred and one deaths.

Seven hundred and forty-nine bodies were counted at the cemetery gates as the mortality bill of Sunday, and this, as in many other cases, was doubtless short of the actual number, as it comprised interments only.

Over 200 fatal cases were reported up to 2 o'clock P M of Monday, the total report for the day being only five hundred and thirty-seven.

Tuesday showed somewhat of a decrease, the day's interments being only three hundred and ninety-seven.

On Wednesday up to half-past one o'clock, three hundred and three burials were registered, the mortality for the day reaching four hundred and twenty-seven.

A new cemetery, to recieve the fever victims, has been opened in the *campo* south of the city, toward the Riachuela—the old pantheon being inadequate. A tram railroad has also been laid from the city to this new necropolis, and the bodies are carried out on the trucks like so much packed freight. There is no time to construct coffins or burial cases. The stock on hand was long since exhausted, and the undertakers have in some instances fled from the terrible harvest of business that has sprung up.

About 150 000 persons have fled the city, some taking refuge in Montevideo and the towns up the river Parana, but by far the larger portion are in the *campo*, within a distance of from ten to fifty miles from Buenos Ayres. Peasants and *gauchos* living in miserable mud-walled huts, with straw roofs have been besieged with importunate tenants from among the wealth and aristocracy of the Republic, and in scores of cases are receiving as much as $250 to $500 per month rent for their squalid abodes. Families who lived in suberb style two months ago are now cowering among the huts on the plains and sleeping on beds laid upon the floor of earth.—*Cor. N Y Herald.*

WELLS COLLEGE.
MR HENRY WELLS, ONE OF THE founders of Wells, Fargo & Co, and the acknowledged father of the present Express system, has erected a College at Aurora, Cayuga Lake, New York, for the Education of Young Ladies.
In addition to the collegiate departments the institution is to have a cabinet of Natural Curiosities—such as gold, silver, quicksilver, petrifactions, agates, crystals and other minerals and fossils and rare botanical specimens. To procure these articles Wells, Fargo & Co's agents everywhere have constituted themselves a committee for their collection. Specimens such as are more particularly referred to in Mr Wells' letter, should in all cases be accompanied by written memoranda, giving the name of the contributor, that of the thing sent, its natural locality, and such other local or historical data as will be of instructive value and interest. Each specimen thus obtained will be neatly labled, so as to perpetuate the name of the donor, and the entire collection will be handsomely displayed in the college building and designated as "Wells, Fargo & Co's Express Contributions."
F. GARESCHE, Wells, Fargo & Co's agent at Victoria, respectfully solicits contributions and specimens.

THE STANDARD LIFE ASSURANCE COMPANY,
ESTABISHED 1825.
CONSTITUTED BY SPECIAL ACTS OF PARLIAMENT.
ANNUAL REPORT, 1871.
THE FORTY-FIFTH ANNUAL GENERAL MEETING OF THE STANDARD LIFE ASSURANCE COMPANY was held at Edinburgh, on Thursday the 20th April, 1871—
H MAXWELL INGLIS, ESQ, P C S, in the Chair
THE MANAGER submitted to the meeting the ANNUAL REPORT by the DIRECTORS as to the PROGRESS of the BUSINESS. He also submitted—
The ANNUAL REPORT on the BOOKS and ACCOUNTS by the AUDITOR of the Company, certifying that he had found the whole accounts accurately stated and properly vouched.
BALANCE-SHEET of the COMPANY'S AFFAIRS, certified by the Auditor and three of the Directors, in accordance with the Acts of Parliament constituting the company.
A GENERAL AND COMPARATIVE STATEMENT explanatory of the PROGRESS of the BUSINESS from 1825 to 1870.
THE following RESULTS were communicated in the REPORTS—

AMOUNT PROPOSED FOR ASSURANCE during the year 1870 (2393 proposals)	£1,498,689 3 10
AMOUNT OF ASSURANCES ACCEPTED during the year 1870 (1936 policies)	£1,181,399 3 10
ANNUAL PREMIUMS on New Policies	£42,725 1 8
CLAIMS BY DEATH during the year, exclusive of Bonus Additions	£333 005 16 4
THE SUBSISTING ASSURANCES at 15th November, 1870, amounted to (Of which £970,269 is was Re-assured with other offices)	£16 691,088 19 2
THE ACCUMULATED FUNDS amounted to upwards of	£4,000,000 0 0
THE ANNUAL REVENUE was upwards of	£700,000 0 0

THE CHAIRMAN requested particular attention to the Report submitted by the Directors, which was then read and from which the following is an ext act
"On the present occasion the Board of Directors have not only to give an account of their proceedings during the first financial year of the Company's progress, but during the quinquennial period which closed on the 15th November, 1870.
"The Directors have now much satisfaction in reporting that each year of the quinquennial period has been attended by that steady and satisfactory progress which has for so long a period marked the operations of the Company. They did indeed, at one time, contemplate that their advancement might be checked: First, by the monetary disturbances in 1866, and latterly, by the financial difficulties of various English Assurance Offices, which had given rise to distrust and doubt; but it will be observed from the following Table, showing the business transacted during the five years that the Company has pursued the calm and even tenor of its way without being in any degree affected by these disturbing elements.

NEW ASSURANCES EFFECTED FROM 15TH NOVEMBER, 1865 TO 15TH NOVEMBER, 1870:—

"To 15th November, 1866	£1,190,281 11 2
" " 1867	1,127,520 10 0
" " 1868	1,104,264 19 6
" " 1869	1,110 327 2 9
" " 1870	1,181,399 3 10
Total in Five Years	£5 713,813 7 8

Giving an annual average of new business during the period of £1,142 762 15s 5d, the first and last years of the period being above the average.
"While the Directors direct attention to these results, as indicative of the industry with which the business has been pursued, they would also claim credit for the exercise of a sound discretion in the selection of lives, the proposals made to the Company during the period referred to, and from which these assurances were selected, amounting to no less than £7,151,170 16s 5d, contained in 11,221 proposals, of which 9190 were accepted, represented by the total of £5,713 813 7s 3d, shown above.
"The company has thus, it must be admitted, been eminently successful in obtaining new business, evincing the esteem in which it is held by the public; but a Report of this nature would be very incomplete were prominence not given to the Exits as well as the entrances. Death has claimed its usual percentage of the living and the Company has fulfilled the object of its institut on by meeting with promptness the claims which were thus made upon its funds.
"The Deaths during the quinquennial period gave rise to the following claims:—

Claims.	Sums Assured.	Bonus Additions.
1866	£314 376 8 10	£48 693 4 8
1867	296 561 13 6	46.195 13 0
1868	315.070 15 6	46.598 17 1
1869	322.117 11 8	36.649 10 10
1870	333.005 16 4	42 343 16 1
	£1.591 732 0 10	£220 476 1 8

"In transacting all this business, the Directors have to the best of their ability, discharged the responsible duties devolved on them. It can well be imagined that in the acquisition of so much new business, in the dealings with so many accumulated transactions and in the settlement of such a large amount of claims, questions of importance requiring the exercise of care, judgment, discretion and liberality, have presented themselves and probably the best gauge of the success which has attended the management in these respects is that so little has been heard of the Company as it pursued its way. The Directors may at any other time refer to the advanced position which this Company has always taken up in liberalising the conditions of the Assurance Contract which has greatly facilitated all these proceedings, but at present they will confine themselves to the simple duty of reporting progress.
"The Directors have only further on this occasion to refer to the Investigation with reference to to the Eighth Division of Profits now in progress. They are happy to state that the laborious calculations necessary to ascertain the Company's position have very nearly been completed, but the results have not been placed before them by the Actuary, so that they can make no statement on the subject, but they are glad to have it in their power to state that a few weeks hence the whole will be reported in the most complete manner: These remarks apply to the actuarial results which show the liabilities of the Company.—The investigation of the other side of the account, namely, the Assets, has already been completed and a most satisfactory Report made by a Committee of Directors who have examined each security and each document constituting it.
The CHAIRMAN then addressed the meeting in congratulatory terms on the position of the Company.
The REPORT was unanimously approved of; and after the election of new Directors and a vote of thanks to the Office-Bearers, the Meeting separated.
BY ORDER OF THE DIRECTORS.

Bankruptcy Court.

Before Chief Justice Begbie, and Justice Crease.

WEDNESDAY, JUNE 14, 1871.

IN THE MATTER OF DAVID CAMERON, A BANKRUPT.—The bankrupt had assigned a pension of £500 which he enjoys from the Colonial Government, for the benefit of creditors. At a previous Court Mr Justice Crease decided that the pension was unassignable in law. The case was subsequently reopened and argued before the Chief Justice and Mr Justice Crease, and yesterday was appointed for their decision. Mr Justice Crease reaffirmed his previous decision that the assignment was bad in consequence of a provision in the Pension Act. The Pension was given in consideration of the Bankrupt giving up a salary and position which he enjoyed under the Government. In this view the learned Chief Justice did not agree with him; but he was sustained by a decision of Chief Justice Needham. On the 2d point, viz, that a certain portion should be set aside for the benfit of the creditors, the Justices were in accord and were of opinion that £150 out of the £500 should be set aside for that purpose.

The Chief Justice said that he held an opinion quite opposite to that of his learned brother, and claimed that the Pension Act, between which and any ordinary Act, he could see no difference, would not bear that construction. It might be said that the Act that forbids an official selling his salary forbids his selling his pension; but there was no analogy between the cases and he could see no difference between this assignment and any ordinary one. However, as his learned brother and he did not agree on that point, and it was said there was a precedent in a decision given by Chief Justice Needham (although no record of such decision was to be found) the case stood two Judges against one, and although he (the Chief Justice) would have decided that the whole amount be handed over to the creditors, he gave way. With respect to setting aside £150 per annum for the benefit of the creditors, he agreed with his learned brother.

Mr McCreight, instructed by Drake, Jackson & Aikman, appeared for the Assignees.

IN RE Q. C. COAL COMPANY. — Application of Messrs Lenevue, Eckstien, Sayward, Davies and Redfern to be allowed, on account of the Call now made upon them as contributories, 19s. on each A share, held by them, which sum was paid to the Company prior to the recent decision of the Court.

The application was allowed.

RE J W KEYSER.—The claims of three San Francisco creditors were proved and H. F. Heisterman, Esq., was appointed Creditors' Assignee.

Police Court.

WEDNESDAY, June 14th.

Peter, a tall, athletic Indian, for committing an unprovoked assault on John, another Indian, was fined $5, or in default of payment to suffer one month's imprisonment.

Jim Copperman, a Songish Indian, and Jim, a Cowichan Indian, appeared in the dock charged by a police officer with fighting each other. Each of the culprits in turn took the witness box and charged the other with being the agressor. The Songish man seemed the hardest case of the two, and was ordered by the Court to furnish security in the sum of $50 to be of good behaviour for six months—in default thereof to suffer imprisonment for three months, whilst the Cowichan man got off with a $10 security for three months or in default two weeks' imprisonment.

Another brace, two Charleys of the Songish tribe, also appeared, first as prisoners in the dock and then alternately as witnesses. Each charged the other with a dreadful assault. One of the victims showed marks of a severe conflict, if a bloody visage and torn raiment are any indications. Whisky seemed to have been the cause of the fight; and the Charley who introduced the battle on the scene of action was pronounced the more guilty and fined $15, or two months' with hard labor; the other $10, or in default 14 days' imprisonment.

WATER.—We of Victoria are apt to imagine ourselves badly off in the water line; but on the principle that misery likes company, it may add to our happiness to know that Victoria is not the worst off community on the coast, in this respect. The *Oregonian* complains bitterly of the price at which the indifferent water of the Willamet is served up to the people of Portland, and thusly concludes its plaint:—'They who use this water will soon be asking in the language of the poet, slightly varied—

> Lives there a man with smell so bad
> Who never to his wife hath said
> "This water, frau, will never do!"
> Whose "innards" ne'er within him burned,
> As from the hydrant he hath turned,
> And muttered "who did this, now who?"

DR GRANT FOR KNIGHT.—In a recent number of the London *Lancet* complaint is made that eminent medical men in Canada have not come in for a share of royal honours, and instances the case of Dr Grant, M P of Ottawa. The suggestion of the *Lancet* has been warmly taken up by the Ottawa press. Dr Grant is not only eminent in his profession, but he has proved himself to be an able legislator. One of the best speeches made in the Dominion House of Commons upon the subject of the admission of British Columbia, was by Dr Grant. Of all who spoke not even excepting the Cabinet Ministers, he exhibited, perhaps, the clearest conception of the national aspect of the question.

RETURN OF THE ENTERPRISE.—The steamer Enterprise returned from New Westminster yesterday afternoon. While on the upward trip one of the Fraser buoys was replaced and the steamer did not reach New Westminster until 8 o'clock in the evening. Following is the passenger list: Mrs Jennings, Rev MrRuss, Messrs Pearson, Mohun, Farwell, Lee, Armand, Bagnell, Donaldson, Dobrin, Augustus. Camp.

THE PLATE advertised for sale at auction by Messrs Plummer & Pagden will be on view to-day at the store of Mr C E Redfern on Government street, between the hours of 10 a.m. and 3 p.m. Lists of the articles will be circulated with THE COLONIST to-morrow.

THE PRINCE ALFRED, from San Francisco is due to-day.

THE CALIFORNIA is due here from Portland.

Mainland News.

We glean the following from the Mainland *Guardian* of yesterday:

We learn by a late arrival from Fort George that the two new creeks lately discovered at Omineca are said to be very rich, and the extent of the Peace River diggings now known will afford profitable employment to all who choose to go up. The snows had been heavy so that some time will yet elapse before work can be generally commenced. The routes at present travelled are principally by boats carrying up to 15 tons, from Fort George via Stewart River to Tatlah Landing, and thence to Germansen Creek by pack animals, which are now numerous. The steamer Victoria carries large numbers of pack animals across from Quesnelmouth to the opposite side of the river, where they are loaded and proceed along the telegraph trail to Frazer Lake. Two or three pack trains leave the Mouth of Quesnel every week. Freight by this route to Germansen Creek from Yale costs about 37½ cts, that is, from Yale to Quesnelmouth say, 7 cts, Quesnelmouth to Tatlah Landing 12½ cents, thence to Germansen Creek 18 cents. These prices, however, will be much reduced as the season advances, particularly after the trail is completed from Giscome Portage. Passengers have to pay from Quesnelmouth to Tatlah Landing from $10 to $12.

Everything connected with farming in the upper country is flourishing, and agricultural produce is bringing good prices. The promise of abundant crops and the ready sale for produce ensure for farmers a year of great prosperity.

Mr Claudet inspected the North Arm trail a few days ago, with a view to having it opened The trail in question leads from New Westminster down towards the Gulf, passing through an important settlement, and the opening of it will be a great boon.

The steamer Lillooet lay over at Yale, not being expected at New Westminster till Friday. Cause not stated.

MECHANICS' LITERARY INSTITUTE. — At a meeting of the Committee yesterday it was decided to reduce the Librarian's salary, to endeavor to get the rent lowered, to accept Captain Starr's offer of the gratuitous use of his new steamboat for an excursion, to accept an entertainment at the Theatre, tendered by Mr Austin and Mr Howse on behalf of amateurs, and to sell the piano. The hours at the library, after the 1st proximo, will be from 12 M to 1 P M, and from 7 P M to 9 P M o'clock. The Committee express an intention to fight for an existence, and they deserve the hearty applause of everybody for their determination.

DEATH OF GEORGE WILSON.—George Wilson, who was once the most prominent figure in the fistic circle of this colony, died at New Westminster of heart disease yesterday afternoon. Wilson was a large and powerful and exceeding agile man. He fought several battles in England and Australia and won them. He had two fights in Cariboo, in one of which he was successful, but lost the other in consequence of a foul blow. It is related of him that in early days in Cariboo, when pack-animals were scarce and provisions high, he used to pack 300 pounds on his back across Bald Mountain!

REGISTRAR OF TITLES.—It is rumored that Mr Aikman, junior member of the firm of Drake, Jackson & Aikman, will be appointed to the position of Registrar of Titles just vacated by Mr Alston. Mr Aikman was Deputy Registrar during Mr Alston's absence on several occasions and thoroughly understands the system of land registration in use in this colony.

THE 'JUMPED' LAND.—It is said that the question of the right of Dr Trimble and others to the land lying beyond Beckley Farm on the James Bay side of the harbor, will be argued within a few days before the Chief Justice. It is important that the matter should be decided before the colony is handed over to the Dominion.

RAFFLE.—The grand marble vases and the group of The Three Graces will be raffled at the Colonial Hotel as soon as all the chances shall have been taken. There will be 150 tickets at $3 each. The highest number thrown will win the vases and the next highest the group.

Good, Cariboo!—One thousand dollars have been subscribed at Barkerville for the proper observance of Dominion Day. At Victoria not a penny has been subscribed. Are we not to have even a salute fired at the capital city in honor of the birth of a nation?

INDIAN RESERVE.—Messrs Mohun & Farwell, surveyors, returned from the Mainland last evening. They have laid out an Indian Reserve on the right side of the Fraser about midway between Canoe Pass and Point Roberts.

FAILURES.—The sales of marbleware announced for Tuesday and Wednesday were failures. No one came. It is to be regretted that the sales were not properly *advertised*.

KALAMA.—The news received last evening was telegraphed from Kalama, the line to Portland being submerged.

THE propeller G S Wright, for Sitka passed up yesterday.

THE EMILY HARRIS will sail at 6 p.m. tomorrow for Skeena River.

AN Executive Council was held yesterday.

SUMMER GOODS.—A B Gray has received per steamer Pacific a large assortment of goods suitable for the present season, comprising Muslins, Prints, Hollands, Brilliants, Alpacas, Lace, Barege and Wool Shawls, Silk, Cloth and Holland Jackets, Flowers, Silk and Cambric Sunshades, Linens, Cottons, Hosiery, Ribbons, Laces, &c, &c.—Government Street, May, 1871. *

Go to David Green's if you want a coat
Made of wool, from the finest sheep or Cashmere goat,
Or the best fitting pants, or the nicest vest—
There's where you will always get the very best.
He has all kinds of goods that gentlemen need,
Cloth, silk, cashmere, velvet linen and tweed—
If you'll all get a suit and plank down the cash
He'll sell to you cheap if it breaks him to smash! jap29

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

Cowichan Letter.

COWICHAN, 9TH JUNE, 1871.

EDITOR BRITISH COLONIST, — Registration has been well attended to in this district. I believe few have neglected it and

CANDIDATES ARE PLENTIFUL.

'Tis said Mr Smithe of Somenos, lately returned from California, is a candidate. If Messrs Morley and Skinner are candidates, we have seven Richmonds in the field. Our J.P., like a coy damsel, is hesitating between "I would, and I won't." Mr E Pimbury, from Victoria, paid us a visit and is going to settle in Cowichan with his brothers. I have not the pleasure of being acquainted with the gentleman or his views, but I believe him to be thoroughly independent and not likely to be made a tool of by any clique. We have none more intelligent, respectable, or hard-working men amongst us than the Pimbury brothers. We have a

Are looking well, but the weather is cold and backward for the season. The wild roses are only now coming into blossom — nearly a month later than usual. The wet weather completely spoiled the Queen's Birthday Picnic, although a few choice spirits went from Somenos with one waggon, and a party of twelve or fourteen small boys met at the Agricultural Society's grounds, Maple Bay, and made themselves as happy as possible, under the circumstances, but were quite astonished to find in your cotemporary a flaming account of the

PLEASANT LITTLE PARTY,

stating that 'the road was alive with pleasure seekers, sounds of music, &c. Fancy the road from Somenos to Maple Bay (a distance of 7 miles) alive with a small party and one wagon. If Baron Munchausen's Cowichan penny-a-liner to the Communist, would, instead of writing burlesque accounts of his neighbors' social gatherings, employ his *veracious* pen in showing how the road tax, wrung from the settler's hard earnings, is squandered, he might do some service and be more likely to attain the object of his ambition—a seat in the Local Legislature.

WASHINGTON, June 12—A report was telegraphed from this city last week that notwithstanding the fact that numerous officers of the Treasury Department and others have been sent to Europe on business connected with the new loan, and great efforts have been made to sell the new bonds in Continental markets, and that not a dollars worth of them had been sold, would naturally lead many to suppose that Boutwell has met with more difficulty in that direction than was anticipated, and that if the public debt is funded at all it must be done at home. The fact is some of the new bonds have been sold abroad, a few millions; but the amount is so small that no general report of it has been made. The Secretary, however, is not at all discouraged and still expects to dispose of a large portion of the loan in Europe.

Captain Hall's Arctic exploring steamer Polaris sailed yesterday afternoon with all the officers and crew on board, for New York.

NEW YORK, June 11—A Washington special says the causes which led to the estrangement between Mr Catacassy, Russian Minister, and Secretary Fish, had their origin in a letter written by the Minister to his Government touching certain diplomatic matters.

Our Ottawa Letter.

OTTAWA, May 25th.

That pesky Treaty of Washington still continues to absorb public attention in every part of the Dominion as well as in the two Island Provinces of the Atlantic still out of the Dominion. Everywhere

CODFISH AND YANKEES

constitute the staple topic of conversation, and to Canadians everywhere that treaty has a very jug-handle look about it. To the reference of the San Juan dispute to the Emperor of Germany there can, indeed, be no objection. If our claim to that island is a just one WILLIAM is not likely to decide against us. If the island has been sacrificed by the stupid bungling of the English Commissioners of 1845, why, there is 'no use crying over spilt milk.' The Alabama question was a purely Imperial affair, and if John Bull felt like telling Brother Jonathan he was sorry for what he had done and was willing to pay what any disinterested party considered right, shake hands and be friends, why, that was a matter with which we Canadians had very little to do, although one may not be quite able to choke down a disagreeable sensation; but there is a feeling in this country that they should not have sought to right their little wrongs by wronging their little brother. Since the return of

SIR JOHN A MACDONALD

the impression has been created, in what way I know not, that the Queen will give Canada a sugar-plum if he will only be a good boy and not spoil the nice little arrangement she has made with the big, saucy boy, Jonathan. What that sugar-plum is to consist of is not definitely stated, but mysterious hints about Imperial backing for the Pacific Railway and a large national colonization scheme therewith connected have led to more or less definite conclusions; yet the railway and the colonization scheme being equally an Imperial and Canadian necessity, it scarcely appears fair to ask Canada to surrender so incalculable a source of wealth and national strength as the fisheries undoubtedly are, in return for what may reasonably be expected as a matter of right and national policy. What position the Cabinet is going to take upon the subject I have been unable to gather, as the ministers are keeping their counsel remarkably well; but the singular unanimity and increasing enthusiasm with which the current of public opinion runs against the Treaty leads me to think that the Canadian Government cannot afford that current even if they dared make the attempt. Ministerialists, Grits, Reds and Independents, all vie with each other in declaiming against the surrender of

CANADA'S NOBLEST INHERITANCE,

and it is perfectly obvious to the mind of your correspondent that a whole cart-load of sugar-plums would not suffice to pacify or reconcile Canada, or retain in power any Ministry being party to the surrender. What deepens the disgust of the Canadians is the fact that the

FENIAN CLAIMS

were permitted to be eliminated from the Treaty altogether—claims less open to question than those in respect of the Alabama. Under these circumstances it is scarcely surprising that the return of Sir John A Macdonald, day before yesterday, was the occasion of less enthusiasm than would otherwise have been the case. Should Canada refuse assent to the Treaty, what will be the result? The New York *Times* has a very temperate and sensible article upon the subject, in which it says:—'Should the Provinces refuse to ratify this portion of the treaty, it will not prevent the more important articles from being approved and ratified by both Governments, and becoming the foundation of a long era of amity and good feeling between the two countries.' Turning to the more agreeable subject of an

INTERNATIONAL TRADE CONVENTION,

It will be remembered that such a gathering took place at Detroit in 1865, when the Hon Joseph Howe made a speech which Americans present are not likely very soon to forget. Another similar meeting is arranged to be held in Boston on the 21st June next. To this meeting have been invited the Executive Council of the National Board of Trade of the United States, and the Executive Council of the Dominion Board of Trade. There is a growing feeling in the United States in favor of greater freedom of trade with Canada, and we desire to encourage and reciprocate that feeling. The subject of

IMMIGRATION

is one which bids fair to command that share of public attention in this country to which its importance entitles it. During the years 1869-70 some fifty thousand settlers were secured to the province of Ontario alone, and at what cost to the State, think you? Just one dollar a head! It is not surprising that there should be a very general desire to extend so profitable a business. It is proposed to multiply and perfect the agencies and appliances with a view to promoting immigration upon a much more extended scale, partly with the knowledge that no inconsiderable percentage will pass on to the great North West. Ontario, perhaps, more than any other province, is thoroughly Catholic in her views on this great subject, and there is every prospect of Manitoba soon becoming Canadian in population, as she is politically. Even Ontario is sending over her fifties and her hundreds, and the question of French and English half-breeds must soon disappear. In regard to those questions more directly concerning

BRITISH COLUMBIA

I have scarcely been enabled to lay my hands upon anything worth communicating. Mr Sandford Fleming appears to be absorbed in the work of organizing for the survey of the Pacific Railway and two or three parties only await orders to start. You will see by the papers going out by this mail that Major Irvine has been appointed to the command of the militia force of Manitoba So far no similar appointment has been made for the Pacific Province, although rumor has been busy upon the subject. Amongst those mentioned in connection with that appointment are Lieut Colonel Chamberlin, C B, and Lieut Colonel Powell. The former you will recollect, as having achieved fame and earned a C B at the frontier last year in repelling the Fenians. The latter, as Deputy Adjutant General of Militia, has acted no unimportant part in bringing the 'Grand Army of Canada,' as Sir George Cartier delights to term it, to its present admirable condition. He was on an official visit to Ireland last year. I cannot think, however, that either of these gentlemen could be prevailed upon to relinquish their present positions for the one in question. Nothing further has transpired about the

LIEUTENANT GOVERNORSHIP.

The Hon Mr Tilley is expected here to-morrow, but with such important and perplexing questions on hand as the Pacific Railway and the Treaty of Washington; it has become a matter of grave doubt whether Canada could spare such valuable men as Mr Tilley from her councils.

ELECTRICITY IS LIFE.

PULVERMACHER'S
Pocket Batteries.
CHAIN BANDS, BELTS
AND
PATENT GALVANIC

THESE REMARKABLE AND HIGHLY improved inventions render electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonising pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with. The daily increasing number of cures effected by PULVERMACHER'S MEDICO GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention as the embryo of the universal remedy.

N. B—The following testimony from the ELITES of the English medical faculty has been received:

"We, the undersigned, have much pleasure in testifying that Mr J L PULVERMACHER'S recent improvements in his Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to scientific Medicines and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.

Dated this 9th day of March, 1866

Sir Charles Locock, Bart., M O, F R C P.
Sir Henry Holland, Bart., M D., F R S.
Sir Wm. Ferguson, Bart, F R S.
Edward H. Sieveking, M D, M R C S.
Sir J. Ranald Martin, F R C S."

PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medecine, Paris; Royal College of Physicians, London; and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet gratis).

These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY

PULVERMACHER'S MEDICO-GALVANIC CHAIN are exceedingly effective without the aid of medicine, restriction of diet, or the least derangement of the patient's habits and daily occupations. In the following maladies:—

Rheumatism,	Tic Doloreux,	Sluggish circula'n,
Gout,	Indigestion,	Urinary Disorder
Sciatica,	Deafness,	Paralysis,
Lumbago,	Spasms,	Epilepsy,
Neuralgia,	Female complaint	Nervous Debility
Head & Toothache	Constipation,	Functional Disorders, &c
Liver Complaints,	Cramp,	

The effects of the application of Pulvermacher's Chains in any of the above disorders is immediately perceptible—the relief of pain instantaneous.

CAUTION A Perpetual Injunction in Chancery, dated 18th August 1869, was granted to J L Pulvermacher against Alfred Barrows, alias C D Hammond, alias Henry James, alias C D Ranshey, his assistants agents and servants restraining the said person or persons under a penalty of £5000 from deceitfully advertising Belts, &c., exclusively representing them as electric. This decree is printed in extenso in Pulvermacher's Pamphlet of recent testimonials and Medical Reports of cures, containing likewise numerous extracts from many standard and scientific works, viz. Dr Quercin's "Materia Medica," Dr Tanner's "Practice of Medicine," Dr Handfield Jones "On Nervous and Functional Disorders, etc." This pamphlet may be had at the office of this Paper, or of J L Pulvermacher's Galvanic Establishment, 200 Regent St, London.
